

This nice-looking Lola T70 Coupe from Le Mans 1968 is due soon, from Thunderslot.

It will be joined with this Roger McCluskey Can-Am Spyder version and hopefully the U.K limited edition Surtees Le Mans Lola Aston Martin.

The Slot.it / Policar stand was busy with many checking out the new track system developed with racers in mind by Maurizio. This shot shows the Subaru cars that will feature in his new set, due before Christmas, and also shows the grippy texture of the track system.

Gaugemaster and Slot.it had adjoining booths with a handy test track just outside. Just out of shot were Staffs who had the prototype of their X pack RS2000 (Yummy) on display.
